Micro/Nano Technology Systems for Biomedical Applications

Microfluidics, Optics, and
Surface Chemistry

EDITED BY CHIH-MING HO

The background of the lower half of the cover features a soft-focus, abstract image. It consists of several translucent, purple and blue spheres of varying sizes, some of which appear to be floating or moving. A faint, grid-like pattern is visible in the background, suggesting a microscopic or technological theme. The overall color palette is dominated by purples, blues, and whites.
